DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 31-39 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 31 is vague and indefinite because it is not clear how in step (b) the coupling of the product (a) with B-L-B forms a monohalosilane. Based on Figure 1 of the instant application, step (a) is the reaction of dihalosilane **1** with compound **2**, which is viewed as Y'-E of claim 31 where the leaving group is H. Said step (a) forms the compound **3**, which is a monohalosilane. Said monohalosilane **3**, reacts with HO-L-OH, which is viewed as B-L-B of step (b) in claim 31, forming compound **4**. In claim 31, step (b) forms a monohalosilane. However said compound **4** in Figure 1 is not a monohalosilane, therefore it is unclear how an halogen is displaced to form the compound of formula 1 as claimed in claim 31, step (c).
